OUR STATEMENT

Since 2003, Projecting & Sounding ART have been creating award-winning spaces for domestic fun and entertainment making your dreams come true by installing systems of advanced technological intelligence and optimal convenience.

Our portfolio includes the design, study, installation and complete configuration of systems for the most sophisticated residential and business premises in Greece.

Our persistently perfect, discreet, invisible solutions have become a reality through the qualified expertise and specialization of our experienced team. We use the most modern tools and measurement systems, thus ensuring maximum performance for each project. After your "dream" has been delivered, we will stay by your side offering high-level services and solid after sales privileges.

Sincerely

Wonderful pictures in beautiful spaces.

We follow the principles of aesthetics over technology
to install amazing projection systems
that elevate your modus vivendi.

THE ART OF PROJECTION

/ Home Theaters are built to spec based on the technologies
of the commercial cinema brands

/ We have received awards from CEDIA, the most prestigious organisation
behind all modern home cinema standards

/ The only limit is your imagination. What you can dream of, we can realise

01

**Immersive sound through beautiful
- and even invisible - audio solutions.**

From finely crafted loudspeakers and literal “walls of sound”
to aesthetically pleasing acoustic materials.
We are the “fuel” to drive your audiophile dreams.

THE ART OF SOUND

/ Uniquely designed loudspeakers
with modern “personality” and unparalleled sound

/ “Big sound, no speakers” solutions.
Amazing installation possibilities and multiroom distribution

/ Wide selection of acoustic materials for all kinds of sonic optimisation
with minimum visual impact

**ACOUSTIC
TREATMENT**

**DESIGNER
LOUDSPEAKERS**

**INVISIBLE
LOUDSPEAKERS**

**Smart and fun, without the clutter.
Enjoy your space featuring invisible devices.**

We install all the required technology for your project
in a way that means no cabling is visible
and no space is taken up by "ugly" devices.

OUTSTANDING TECHNOLOGY OUT OF SIGHT

/ Totally invisible cabling installation. Unlimited multiroom integration

/ Highly reliable and innovative device concealment solutions,
even for the most demanding scenarios

/ Integrated control from a single all-in-one interface,
on your favorite mobile devices and tablets

**CONCEALMENT
SYSTEMS**

**IN-CEILING
LOUDSPEAKERS**

**PROJECTOR
LIFTS**

**INVISIBLE
LOUDSPEAKERS**

**TV
TO-FURNITURE
INTEGRATION**

**Outdoor entertainment.
Just like indoors.**

We break the limits of indoor installations and transport an equally amazing picture and immersive experience with powerful audio to the outdoors.

AUDIO & VIDEO OUTDOORS

- / Stealthy loudspeakers and retractable screens that blend in with the natural environment
- / Invisible installations that reveal themselves on demand
- / Completely weatherproof systems with guaranteed reliability

**BLEND-IN
LOUDSPEAKERS**

**ULTRA BRIGHT
OUTDOOR TVs**

**RETRACTABLE
OPEN-AIR
LOUDSPEAKERS**

**Smart home, intelligent office.
Less worries, more time.**

We make your residential and business life effortless, through intuitive automation. Your spaces become "eco" and "smart", while you worry less and enjoy life more.

YOUR LIFE MADE AUTOMATIC

/ Leading automatic solutions from the most acclaimed brands

/ Custom interfaces and control devices, tailored to your personal needs and preferences

/ Intelligent energy management for lighting, heating, security and everything in-between

**Want to travel the seas?
No need to leave the fun behind!**

Your yacht, just like your home.
Entertain your family and guests with movies and music, monitor
your business and enjoy uninterrupted comms and networking.

YACHTING LIKE HOME

/ Automated yachting.
Control your entertainment and security from your favorite mobile devices

/ Multiroom audio/video distribution with maximum space-saving,
both inside and on deck

/ Best-in-class invisible integration with the most durable, certified electronics

06

**Enjoy your tranquility.
Be warned promptly.**

Our security systems integrate with your smart home and business for the ultimate peace of mind and efficient notifications for all kinds of events.

YOUR ABSOLUTE SECURITY

/ Advanced monitoring systems for demanding installations and ultimate reliability

/ Systems highly protected against hacking and theft

/ Remote monitoring and event notifications for any number of properties

/ Consistently trained team, with up-to-date knowledge on the latest developments

/ Vertical custom integration principles, from structured cabling to the finished project

/ After-sales commitment with technical support, fast issue resolution and feature upgrades

CEDIA™
MEMBER

"I've had the pleasure of working with Evangelos Lamprou and his team at "Projecting and Sounding Art" over the past six years. During this time, I had a high-end home theater system implementation at my residence followed by continual tweaks and improvements to the system. Their knowledge of the industry, latest relevant technologies and above all their dedication to meeting the customer needs is unparalleled. I whole-heartedly recommend them".

*Alexandros Sarrigeorgiou
Chairman & CEO
Eurolife ERB Insurance Group, Athens*

"Projecting and Sounding Art created a fully custom home cinema solution two years ago which my family and I have been enjoying immensely ever since. Professionalism and attention to detail and quality undoubtedly makes PS Art an outstanding provider in the field."

"Client in Filothei"

"Knowledge, experience and absolute service is what I have received from "PS Art". From the buildup of my theater through all my upgrades, they have shown professionalism, technical knowledge and with their experienced guidance I am a proud owner of a theater just as I have imagined it and beyond! Fast service, always on standby to resolve any issue, they not only offer the highest quality products but provide total support as well! I couldn't be happier having them as my fellow companions in this magical journey called home theater!"

Kostas Koufou, Rhodes

TESTiMONiALS

"From the first moment I met the "PS Art" team, I knew I had found a group of "expert fanatics", as passionate as I am about hi-end. Working with them closely for almost two years, I experienced a level of professionalism, perfectionism and attention to detail that went way beyond my expectations.

The "PS Art" team was by far the most professional and expert crew that worked on my project. After its completion, the quality of after-sales support I'm getting makes me feel covered come what may, and even more confident I made the right choice".

TP, Management Consultant, Filothei-Athens

"I highly appreciated the fact that PS Art experts spared no time and effort, after detailed and analytical presentation, both at the company's premises and at home of various options to understand my needs and requirements prior to my choosing the right equipment. It was evident that what mattered to them primarily was the customer's needs and ultimately his satisfaction. If this could be defined and expected at first glance as the standard professionalism then the ultimate word had not yet been said. Management and staff far exceeded it. In a relaxed setting, friendly approach and good sense of humour, everybody from "PS Art" quickly reversed stereotyped protocol between seller and customer.

I would like to deserve a special appreciation to Evangelos Lamprou. He not only took personal care but allowed ample initiative to his assistants in their contacts with me sharing with the customer the trust he had on them. In so doing not only did he multiply the effect of a good and sound management but made me look with confidence to the company and its future endeavours."

Stathis Lozos, Athens

"We engaged "PS Art" to assist in setting up our new Metaxas & Sins Athens High End Audio showroom, Greece, specifically in acoustical treatment and projector calibration.

As experts in the industry ourselves, with commercial activities in various parts of the world, it was highly pleasing and surprising to discover that truly international-standard professionals also operate in Greece. Everyone from the polite administration staff, to Mr. Sotiriadis, the ultimate audio expert and to Mr. Lambrou, the GM, who is always polite, responsive and highly-committed, all collectively add to the commercial experience one has when engaging with this company.

Projecting & Sounding Art is a rare entity and comes highly recommended.

We look forward to collaborating with them in the coming years on various exciting initiatives."

Jimmy Rigogiannis, Metaxas & Sins, Athens
